

Rationale: The children have been left clues about three fairy tales – can they solve the mystery of which ones they are? We will be creating our own puppet characters designing, making and evaluating our products. We will then be using these to orally re-tell the story of The Three Little Pigs. We will be developing our writing skills by using the sounds and adjectives we have learnt. This will help us to begin to write sentences and phrases to describe characters from the stories. In order to help the Three Little Pigs think about how to make their homes waterproof, we will be looking at a range of materials and testing them to see which material would work best.

Lead Subject: English

We will be immersing ourselves in a variety of Fairy Tale stories including the stories that involve the power of 3 such as; The 3 Billy Goats Gruff, Goldilocks and the 3 Bears and The 3 Little Pigs. We will be learning how to re-tell and sequence these stories, looking at characters and the beginning, middle and endings of stories. We will be learning about how we can use adjectives to describe.

Lead Subject: Design and Technology

To help us re-tell our new story adaptations, we will be creating our own puppets for a puppet theatre. We will be looking at a variety of puppets, thinking about how they have been made and what materials they have used. We will create our own design, thinking carefully about the design criteria. Moving on to making our favourite design and evaluating our final product.

Lead Subject: Science

The little pig who built the straw house needs some help to think about what materials would be best to keep his house dry from the rain. To do this we will be describing, grouping, identifying and testing the uses of everyday materials in order to find out which is the best material to keep him dry.

Applied Subject: Computing

We will begin to discuss the importance of using technology safely. We will learn how to log-in to the computer and use the mouse to navigate around the screen. We will explore digital painting software.

School Values: Partnership

We will be working together in groups to re-tell stories and using our DT skills, help each other design, create and improve our own puppets.

Applied Subject: PDL

We will continue to learn about ourselves and our relationships, thinking about our feelings and emotions. We will link this to our Fairy Tale learning to discuss how the characters may be feeling.

Maths

We will be continuing to work on our place value skills up until half term, looking at one more and one less than any number. We will then be working on place value of numbers by looking at the composition of numbers 0-10. This will help us deepen our understanding of how to partition these numbers in different ways. We will also be finding out about odd and even numbers.

Home learning

Using our knowledge of our 'power of 3' tales, we will be asking the children to create a paper plate character. We will give out more information separately which will include more details.

Discrete – PE

Indoor: Gymnastics
Outdoor: Target Games

Outcome

As our outcome for this half term, we will be using our oracy skills to retell the story of The Three Little Pigs to our friends, using our puppets to help us retell the story.

Discrete – Music 'The Three Bears'
Explore pitch with high, middle and low sounds.

4 Weeks
