

The Incredible Book Eating Boy!

Year 3

TERM: Spring 2 (3 weeks)

Rationale/Hook:

'The Incredible Book Eating Boy' by Oliver Jeffers tells the tale of a young boy who has an unusual talent—the ability to eat books! But are books as healthy as he first thought? Yes it makes him more intelligent but what long term effects does this have on his body? The young boy is looking for advice on how to eat healthier. Can you help him?

Lead Subject: English

After familiarising themselves with the story and the main character, Henry, the children will be extending their vocabulary and exploring synonyms that could be used to describe Henry and his incredibly rare talent. Using their persuasive techniques, the children will be trying to persuade Henry to try some alternative meals which may be healthier for him.

Lead Subject: PDL

The children will be looking at the food wheel and thinking about what is a balanced and unbalanced diet. Using their knowledge, the children will be planning a more balanced diet for Henry to eat and writing a letter to his parents to advise them of their suggestions.

Lead Subject: Art

The children will be using their artistic skills to draw creative pages just like those in the story. They will be creating these for the purpose of presenting their advice to Henry about how to eat a more balanced, healthy diet.

Applied Subject: ICT

Children will be continuing to grow their confidence of using Microsoft Teams and editing documents based on feedback given.

School Values: Excellence & Aspiration

We will be looking at all the school values, but will focus on Excellence and Aspiration. We want to encourage the children to do their best at all times and to aim high! We will discuss neat presentation, hard work and pushing themselves in order to produce the best work possible.

Applied Subject: Maths

The children will be learning a new addition and subtraction method this half term which will be the start of column addition. The children will be using lots of pictorial and abstract images to help them to do this.

Outcome:

Children will send in their recommendations for eating healthily to be sent to Henry. We hope for a reply.
